

Principles and Practice of Homeopathy

The Therapeutic and Healing Process

David Owen

Foreword by Bob Leckridge, Peter Fisher

May 2015 456pp ISBN: 978-1-84819-265-2 hb £40.00

This comprehensive textbook provides a detailed, practical and thorough basis for the understanding and application of the homeopathic process. Drawing on the experience and knowledge of a wealth of contributors, the book offers the foundations for the safe and broadest practice of modern homeopathy.

Divided into 6 sections, this book takes the understanding of homeopathy from basic principles to the treatment of acute and chronic illnesses, the first prescription, and difficult, confused and hidden cases. Each section progresses through five themes broadly divided into philosophy, material medica, case taking, case analyses and case management. Each theme is woven together through the text and, section by section, builds into an essential study guide for the homeopathic student. It provides opportunities for reflection, and invites all practitioners to engage in their own personal and professional development.

'This is an important step forward in homeopathic textbooks that I would recommend whatever your current level of practice.' - David Reilly, Consultant, Glasgow Homeopathic Hospital, Researcher and Teacher, Glasgow Homeopathic Academic Centre

David Owen, MB, BS, MRCS, LRCP, FFHom, has been practicing medicine and integrated complementary and alternative medicine for 30 years.
